Welcome to HANSA Market

The Darknet Market with the main focus on a trustless payment system, which makes it impossible for the vendors OR the site staff to run away with Bitcoins of the buyers.

Multisig escrow

Optional 2-of-3 multisig for buyers and 2-of-2 multisig as a fallback for buyers that do not want to bother with multi-signature. Money can never be accessed by the market staff. Theft is impossible.

No Bitcoin deposits

Every order has its unique Bitcoin address similar to BitPay's or Coinbase's payment system. Buyers have 15 minutes to pay the order and do not have to wait for deposits to arrive.

No Finalize Early

We do not support FE or partial escrow releases and we don't have to! The multisignature escrow makes it impossible for the site staff or vendors to steal any Bitcoins.

PRODUCT INFO

The Philip Plein is our strongest XTC press available. This big scary pill is even stronger as our Purple Thunderdome press. The Philip Plein is pressed with 270MG MDMA. This has resulted in an amazing 270MG MDMA (pure) labtested @ the Amsterdam Drugtestcenter. No working substances other than mdma are used in the production of these pills. We buy directly from the maker, and we test EVERY press we sell.

Contains 270MG MDMA each. Are you new to MDMA ? Start with half, or even less. Taking a whole pill is ONLY for experienced users. (And even then you should still start with half) Every product will come with a drug manual.

-----STORE PRODUCTS-----

Additional:

- Require security authorization when navigating too much

The screenshot shows the HANSA Market website interface. At the top is a dark blue header with the HANSA logo on the left and navigation links (Home, Trophies, Chat, Help, Login, Register) on the right. Below the header is a light gray search bar with the placeholder text "Search HANSA Market..." and a green "Go!" button. The main content area is white and displays a security challenge. The text reads: "To prevent DDoS attacks please complete the following challenge". Below this is the heading "Security Challenge". The challenge itself is a CAPTCHA image showing the text "dwhRur" overlaid on a background of black dots and lines. Below the CAPTCHA image is a text input field containing the text "dwhRur". At the bottom of the challenge area is a green "Send" button with a right-pointing arrow icon.
